**Trond's list of 20 commitments to a sustainable living:**

from <http://www.care2.com/c2c/groups/disc.html?gpp=714&pst=757877>

1. Created my own environmental blog: <http://earthechoes.blogspot.com>
2. Do not have a car, use as much public transport as possible.
3. Do not use lifts (it is also good exercise).
4. Change light bulbs to energy saving ones.
5. Only buy clothes when/if I truly need them, and then always made of natural fabrics when possible.
6. Recycle what is possible to recycle.
7. I also do not have a TV. The less electronic equipment the better as the manufacture and disposal of such are amongst the worst polluting factors.
8. Have nearly become a vegetarian

**“My actual work is to help save the Amur (Siberian) Tiger through linking poverty alleviation and biodiversity conservation in the Russia Far East,” says Trond.**

## CILE 4 – TASK 1(Individual) - Examiner’s guide

---

The examiner should allow examinee to speak freely about the topic, asking questions when necessary to keep the flow of the conversation. The following questions are suggestions; feel free to add questions of your own.

- What does the graph show?
- Do you have an answer to the question in the cartoon (“Where did we go wrong?”)
- Which of Trond’s commitments do you agree with? Which can make a difference to the environment?
- Do you follow any of them yourself?
- What are the consequences of climate change?
- Who is to blame? Are we all equally responsible?
- Have any of your teachers or professors brought up this issue in class? How?
- Have you seen any movies that deal with the subject? Tell us about it.
- How serious is this problem in Argentina? What weather changes do most people comment on?
- Have you or somebody close to you had any problems due to climate change? Tell us about it.
- What is your position as regards endangered species?
- Should we think about protecting animals when so many people are dying of hunger?
- Should we use money to protect animals rather than feed children?

### Candidate’s sheet:

Relate the graph, picture and the rest of the information on the sheet.

What is the topic presented? How serious is this problem?
